15 December 1969

MEMORANDUM FOR THE RECORD

SUBJECT: Development Objectives for Basic Research in Precise Measurement

1. TSSG/RED is planning a long term program of basic research in precise measurement. Attached is a draft copy of the development objectives for the FY-70 portion of this program.

2. It is requested that each Group or Staff review the objectives of this proposed program and report your comments to TSSG/RED by 12 January 1970. The comments should include:

a. Any additional recommended areas or items that should be covered in the development objectives.

b. Any significant opposition to areas contained in the planned program.

c. The support in manpower, instrument, or working area that operational units are willing to provide the program.

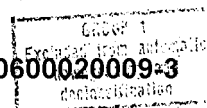

d. The type of personnel (interpreter, analyst, photogrammetrist, technologist) that each Group is willing to have actively engaged in any part of the program.

e. Instruments available for loan to a contractor for use on the program.

f. Surplus instruments to be surveyed and made available for parts in breadboarding systems.

g. The name of a person to contact on any future reference to this program.
